3 Courses

The Water Cycle

Water Security & Stewardship

Water Governance & Economics

Aug 13, 2024

Erin Wilson

Rahul Ashok Jeyalakshmi

has successfully completed the online, non-credit Specialization

PepsiCo: Water Stewardship

You have completed the Water Stewardship Training Program from PepsiCo. In this course, faculty from diverse scholarly backgrounds at Arizona State University provided a water-related curriculum in the form of online micro-lectures designed to improve learning outcomes for professional learners with busy schedules. You learned about the water cycle, hydrology, groundwater models, human impacts on freshwater ecosystems, water governance, water law, the economics of water infrastructure and water stakeholdering. In addition to this "basic knowledge" content, you also learned about the history of corporate water stewardship and the new gold standard—Science-Based Targets and how to set them and advance your water stewardship goals in an intervention-based approach.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
