3 Courses

Computer Hardware and Software

Data, Security, and Privacy

Productivity and Systems Development

Sep 15, 2024

Timothy Carrington, Ed.D.

Rahul Ashok Jeyalakshmi

has successfully completed the online, non-credit Specialization

Introduction to Computer Information Systems

This Specialization is intended for anyone seeking to learn basic computer skills. Through 3 courses, you will cover computer hardware, software, productivity and data safety, which will prepare you to build computer systems.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
